SUMMARY

Full Stack Developer specializing in **scalable system design**, **event-driven microservices**, and **AI-integrated SaaS platforms**. Architects high-concurrency backends (**Node.js/Express**) capable of handling heavy data loads using **RabbitMQ message queues** and **Redis caching**, backed by **PostgreSQL** and **MongoDB**. Delivers secure, SEO-optimized **React/Next.js** frontends powered by real-time WebSockets and **low-latency event processing** and serverless compute orchestration.

EXPERIENCE

Frontend Web Developer Intern

Sep 2025 - Oct 2025

The Night Marketer

Wazirpur, Delhi

- Architected **Ad Analytics Platform** using **React.js**, **JavaScript (ES6+)**, **Recharts** to visualize performance metrics (ROAS, Conversion Funnels); optimized state management and **TanStack Query**, reducing API calls by **40%** and improving user insights.
- Built custom **Chrome Extension** using **JavaScript DOM manipulation** for automated lead generation and data extraction, directly improving sales team outreach efficiency.
- Engineered dynamic **Calendar Event Manager & E-Commerce** application featuring **end-to-end data workflows**, **image uploads**, and **threaded collaboration features** for enhanced user experience.

PROJECTS

Meetly - AI Conferencing SaaS | *Next.js, Inngest, Open AI, Gemini, tRPC, Polar, Stream SDK, PostgreSQL* [Link](#)

- Integrated **sub-100ms video infrastructure** via Stream SFU, deploying **interactive AI voice agents** as active participants for **real-time Q&A**, diarized transcription, and automated summaries via OpenAI and Gemini APIs
- Architected **fault-tolerant workflows** using **Inngest** for durable execution, implementing **step-level state persistence** to reduce distributed task failure rates by 95% during complex post-meeting media processing..
- Built a secure, **type-safe Next.js 16** platform with **Better Auth** and **tRPC** to unify payments, video, and sessions, while automating tax-compliant monetization via **Polar Merchant of Record**.

Kove - Scalable Messaging App | *MERN, REST API, RabbitMQ, Redis, Socket.IO, Cloudinary*

[Link](#)

- Developed an asynchronous, event-driven backend using **RabbitMQ to decouple core services**, leveraging **Redis** for high-speed **rate-limiting** and **TTL-based OTP** management to ensure reliable background task execution.
- Engineered a real-time communication layer with Socket.io and WebSockets, establishing **persistent bidirectional channels** for presence tracking and instant message delivery across a **distributed microservices architecture**.
- Built a **stateless full-stack platform** utilizing React and JWT for secure authentication, optimizing performance by managing ephemeral session data in Redis and **offloading media assets** to Cloudinary's global **CDN**.

Vistyo - AI Productivity Tool | *React.js, Appwrite, Stripe, RESTful APIs, Cohere AI*

[Link](#)

- Architected a high-performance full-stack system integrating REST APIs, **AI-driven semantic filtering**, and Stripe billing, with backend-enforced **PBAC** ensuring tamper-proof, production-grade access control.
- Engineered **scalable data pipelines with cursor pagination**, **request batching**, real-time observability, and defense-in-depth security, delivering 40% throughput gains and resilient, **high-integrity system behavior**.

EDUCATION

Guru Gobind Singh Indraprastha University (ADGIPS)

New Delhi, India

B. Tech in Computer Science and Engineering | **CGPA: 9.13/10**

Aug 2024 – Aug 2028

Green Fields School (CBSE)

New Delhi, India

12th Grade: PCM + Computer Science | **88.6%**

2024

TECHNICAL SKILLS

Languages & Core: JavaScript (ES6+), TypeScript, Python, Java, C++, SQL, HTML5/CSS3

Frontend Development: React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI, Three.js, Shadcn/ui

Backend & Databases: Node.js, Express.js, PostgreSQL, MongoDB, Redis, Prisma ORM, RESTful APIs, WebSockets, RabbitMQ, WebRTC, Microservices, Event-Driven Architecture, Serverless Compute, Docker, GraphQL

Tools & Fundamentals: Git, Postman, Github, Data Structures & Algorithms (DSA), Object-Oriented Programming
